A new 2010-2011 River Heights Community Profile is now in production. We are again partnering with Chamber member NovoPrint USA, Inc. to produce this book. This profile is a great tool to communicate information about your businesses to residents and visitors. The Chamber distributes these guides daily in response to inquiries to specific business or residential locations – in fact; **it's ONE of the THREE main printed publications that are included in EACH informational packet we send out.**

The Community Profile is an important marketing tool for members of the River Heights Chamber of Commerce. Members use this publication as a valuable resource to contact members for service, as a tool to interest prospective employees to the area, as a sales tool for thriving businesses in the area, as a "coffee table" book in their lobby, as an enclosure with company proposals. It is an excellent resource to promote your business or organization.
